

MOTOROLA SOLUTIONS

ONE CONNECTED TECHNOLOGY ECOSYSTEM

MOTOROLA SOLUTIONS HAS CREATED THE FIRST AND ONLY MISSION-CRITICAL ECOSYSTEM BUILT SPECIFICALLY FOR PUBLIC SAFETY AND ENTERPRISE. IT IS A CONNECTED TECHNOLOGY ECOSYSTEM THAT UNIFIES VOICE, VIDEO AND ANALYTICS ON A COMMON OPERATING PLATFORM.

AT MOTOROLA SOLUTIONS, WE'RE DESIGNING THE TECHNOLOGY OF TODAY WITH AN EYE TOWARDS SHAPING THE FUTURE, BUILDING SAFER CITIES AND ENABLING BUSINESSES TO THRIVE. THAT'S WHY WE'VE CREATED THE FIRST AND ONLY MISSION-CRITICAL ECOSYSTEM OF VOICE, VIDEO, SOFTWARE AND SERVICES TO:

ENSURE THAT YOUR LIFELINE REMAINS UNBREAKABLE WITH MISSION-CRITICAL COMMUNICATIONS

INCREASE SITUATIONAL AWARENESS WITH VIDEO SECURITY AND ANALYTICS

ALLOW CRITICAL INFORMATION TO FLOW SEAMLESSLY WITH A FULLY INTEGRATED SOFTWARE SUITE

MONITOR AND PROTECT COMPLEX SYSTEMS WITH MANAGED AND SUPPORT SERVICES

All designed to deliver insights that guide meaningful change to enable powerful collaboration and drive performance that helps to mobilise and connect people in the moments that matter because we're all safer as one.

HIGHLIGHTING OUR SOLUTIONS

TWO-WAY RADIO SOLUTIONS MOTOTRBO™, DIMETRA™, APX™

Whether it's voice communications that save lives or information that keeps a business moving, our two-way radios are built to get the message through to boost safety, enhance security and improve response times. Motorola Solutions offers a broad range of portable and mobile radios, plus the accessories, network infrastructure and software tools needed to run a critical two-way radio system. Whether your system utilises TETRA, DMR or APCO P25 technology, we have the solutions you need to support your operations.

MISSION-CRITICAL BROADBAND COMMUNICATIONS

Our WAVE PTX™ and Kodiak Broadband PTT platforms deliver instantaneous 1-to-many and 1-to-1 communications cost-effectively over 3G, 4G/LTE and Wi-Fi networks to keep your teams connected and more productive with instant communications that have no boundaries. Maximise coverage and connectivity across any network on any device including radio, smartphone or PC.

COMMAND CENTRE SOFTWARE

Know what matters, when it matters with the industry's most integrated end-to-end public safety software suite. CommandCentral unifies public safety data and streamlines workflows through emergency call handling, Computer-Aided Dispatch (CAD), field response and reporting, records, evidence, analytics and custody management.

NEXT GENERATION P25 RADIO

Rugged design. Streamlined interfaces. Accelerated workflows. APX NEXT™ brings you unprecedented advancements in mission-critical voice and data. So you can focus on what matters most.

BODY-WORN CAMERA SOLUTIONS

Frontline workers are regularly faced with abuse and public questioning but Body-Worn Cameras (BWCs) have been shown to act as a deterrent to abuse and are an unquestionable source of evidence. With audit trail features, encrypted data on the device and tamper-proof hardware, our BWC solution ensures the wearer is protected and accountable for their actions. They can even be combined with your current CCTV security solution to build a fully integrated system.

VIDEO SECURITY & ANALYTICS

Know what's happening and act with certainty. Our expansive portfolio of cameras, access control, infrastructure and management software is combined with powerful, AI-enabled analytics to make your systems smarter and your response times faster. By utilising our video security and analytics solutions, investigations that once took hours or days can now take minutes, critical events can be flagged before they become threats, action can be taken before incidents become tragedies and visual evidence can be easily stored and retrieved.

Visit our virtual booth during CCWeek and engage with our subject matter experts to find out more.
