

Message to suppliers

At Motorola Solutions, we are committed to doing business responsibly and operating with integrity. We hold ourselves to high ethical standards and expect our suppliers to do the same.

The Motorola Solutions' [Supplier Code of Conduct](#) lists our expectations for supplier business conduct in the areas of ethics, labor, health and safety, the environment and management systems.

As a condition of doing business with Motorola Solutions, we expect our suppliers, as well as their sources in the supply chain, to comply with the requirements listed in the Supplier Code of Conduct. We regularly assess our suppliers' performance and provide support and training as needed to ensure their practices align with our values.

Commitment to the Supplier Code of Conduct ensures that our employees and suppliers act with integrity, and that together, we succeed by doing business the right way.
