APX NEXT

APX NEXT XE

“Our end-users here in fire and police have done extensive studies on this product. There is no other one like it. It has great capabilities that are not seen in the market that will enhance not only officer safety, but our ability to service the community in a more strategic and safer way. This product with Motorola is a next-generation type of communication device that the first responders of Miami-Dade County deserve.”

— Alfredo “Freddy” Ramirez III, Director Miami-Dade Police Department and Chief of Safety and Emergency Response

The APX NEXT™ P25 Smart Radio combines voice and data capabilities on a single, rugged and easy-to-use device, preserving the lifeline between first responders, and improving their link to the command center with high-speed data capabilities for improved connectivity and real-time operational insight.

- **Secure your radio investment with a future ready Android based solution secured via Azure Cloud.**
- **Increase officer and firefighter safety, situational awareness, and collaboration.**
- **Reduce response times by streamlining information flow to and from officers, dispatch, and your Real Time Crime Center.**

FUTURE READY

Provides a future ready solution, enhancing officer productivity and response

LOCATION

Increases officer safety and reduces response times through enhanced GPS capabilities

SMART CONNECT

Seamlessly expands roaming outside a radio system coverage

RADIO FLEET MANAGEMENT

Reduces the time and resources needed to provision and update a customer's radio fleet

BETTER BASICS

Provides a rugged radio with best in class audio, extended battery life, and purpose built design

A Mission-Critical Radio that is built for any type of first-responder. Feel free to speak with our customers on how APX NEXT can enhance everyday operations and protect your lifeline.
