

BATTERY REFRESH PROGRAM

ENSURE BATTERY REPLACEMENTS FOR YOUR APX™ RADIOS FROM THE START

Maintaining a full shift of battery power is critical, as the loss of communications puts users and citizens at risk. When you purchase Service from the Start Comprehensive, Motorola's Battery Refresh Program is available as an option, providing the replacements you need to keep your radios running smoothly.

KEEP YOUR RADIOS UP AND RUNNING

Lock in your price for Motorola's IMPRES batteries and receive a shipment of replacements covered under the service within a 4-year period. You benefit from regular replacement of batteries and mitigate the performance and safety risks associated with using batteries outside of their recommended useful life.

There are no worries about whether your new batteries are compatible with your radios and you can be confident that the replacement batteries will keep your radios up and running and be available when you need them.

REALIZE SIGNIFICANT SAVINGS

Battery Refresh Program is a cost-effective way to ensure you get the right replacement batteries at the right time and protects you against future price increases. Realize up to 25% cost savings compared to individual procurement of Motorola batteries.

DATA SHEET

SERVICE FROM THE START COMPREHENSIVE - BATTERY REFRESH PROGRAM

THE RIGHT BATTERIES AT THE RIGHT TIME

Battery Refresh Program is only available as an option at the time of product purchase with your 3 or 5-year Service from the Start with Comprehensive Coverage plan. The number of batteries covered by the plan must equal the number of radios you have covered by your Comprehensive agreement. With one simple call, we'll ship out the number of batteries you need. At the end of the 4-year period, your remaining batteries are shipped to you automatically.

CHEAP BATTERIES COME WITH A HIGH PRICE

If you buy batteries on price alone, you could end up spending more in the long run. The batteries may require constant recharging, stop working when your users need them most or even damage your radios.

Battery Refresh Program provides you with Motorola's IMPRES batteries, which can be charged 150 additional times compared to a standard battery - a 43% increase in charge cycles. You can be more confident your battery is ready to go, as IMPRES shows you the exact capacity available, so you can talk longer and work smarter.

For further information about Battery Refresh, contact your Motorola sales representative or visit motorolasolutions.com/servicefromthestart
