SeQent

ALARM NOTIFICATION SOFTWARE

Our Alarm Notification Software is the only platform in the world that natively has integration between industrial software vendors AVEVA, GE Digital, PTC, Rockwell Automation and Motorola Solutions for audio and text message dispatch.

RIGHT PERSON. RIGHT TIME. RIGHT DEVICE.

Plant floor communication is critical, and you need a solution that you can rely on. Our Alarm Notification Software is easy to install and infinitely scalable. Monitor alarms and events from a variety of different systems, from Building Management (BMS), Distributed Control (DCS), Manufacturing Execution (MES), HMI/SCADA systems or direct equipment via interfaces to PLCs or databases. When an alarm or event occurs, it will automatically escalate through a pre-defined hierarchy until acknowledged and will send key information to the right person at the right time on whatever communication device that is configured.

KEY FEATURES

1. Interfaces to OPC, ODBC, AVEVA PI, InTouch, & System Platform, GE Digital iFIX & CIMPLICITY, Rockwell FactoryTalk View SE & PTC ThingWorx
2. Repeats, alarm Escalation, and acknowledgement
3. Initial delay suppresses momentary alarms until a full alarm condition is detected

INCREASE PRODUCTIVITY

Improve productivity by reducing unscheduled downtime and holding employees accountable.

INCREASE QUALITY

Enhance quality by improving first-time yields and bridging quality systems.

INCREASE PROFITABILITY

Increase profitability by reducing scrap and improving productivity and quality.

# PARTNER SPOTLIGHT

SeQent and Motorola Solutions have a strategic partnership focused on the MOTOTRBO™ platform. SeQent is a legacy member of the Application Development Partner (ADP) Program and is the leading partner focused on the industrial automation space. Manufacturers need access to real-time information from their capital equipment/industrial systems, and SeQent bridges this information and dispatches audio or text messages to the MOTOTRBO™ and WAVE PTX platforms.

SeQent

Real-Time Decision Solutions

SeQent is a leading industrial automation software provider and early pioneer in the Industrial Internet of Things (IIoT) space. We provide our customers with innovative, reliable, and cost-effective Smart Factory Software solutions. Our Alarm Notification Software, ANDON-Visual Display Management, Industrial Automated Messaging, and Industrial Wi-Fi SMS Messaging solutions build a bridge between automation systems and communication devices. Our solutions provide end-users with key information so real-time decisions can be made that positively impact productivity, quality, and the bottom line.
