

AVIGILON ACCESS CONTROL MANAGER™ SOFTWARE

SECURE DOORS WITH A SCALABLE ENTERPRISE SOLUTION

Avigilon Access Control Manager (ACM) is a physical access control system for enterprise-class installations, designed to protect people, property and assets. With advanced alarm and identity management, ACM™ provides superior control of access to facilities. This 100% browser-based solution offers the flexibility to respond to alerts from anywhere. Its unification with Avigilon Control Center (ACC) video management software offers a powerful, end-to-end security solution to monitor and secure sites.

UNIFIED ACCESS CONTROL & VIDEO

Review and verify automated alarms generated by ACM with the associated live or recorded video in ACC™ for quicker responses.

REMOTE DOOR LOCK/ UNLOCK WITH MAPS

Visually pin doors spatially on a facility map, view open/close status of doors, and remotely lock and unlock doors, including facility lockdowns during emergencies.

IDENTITY MANAGEMENT

Display user ID profile pictures with access control events and alarms to know who attempted to enter a door and when. Register visitors and print badges in seconds by scanning an ID via integration with HID Global's EasyLobby Secure Visitor Management software.

ALARM MANAGEMENT

Streamline alarm management with audible alerts and colored indicators to visually represent alarm priority. View associated video, enter notes, acknowledge and clear alarms in one place.

BUILT-IN TEMPLATES

Be up and running in minutes with a wide selection of easy-to-use templates to configure doors and wiring.

FIPS 201-2 CERTIFICATION

ACM is FIPS 201-2 compliant and is on the GSA Approved Product List with pivClass technology, meeting the PIV requirements for U.S. federal government employees and contractors.

FLEXIBLE INTEGRATIONS

Save on installation costs with support for ASSA ABLOY, SALTO, Schlage, Simons Voss and Von Duprin wireless locks. Increase security with ViRDI's biometric fingerprint reader technology and Bosch intrusion panels.

REPLICATION & HOT STANDBY AUTO FAILOVER

Simplify identity management with the ability to replicate identity data on multiple ACM Appliances across sites. Maximize system uptime with the appliances' hot standby-auto failover to maintain multiple layers of redundancy and resiliency.

ACM VERIFY VIRTUAL STATIONS

Extend access control to locations where physical doors are not feasible. ACM Verify enables any browser-enabled device to act as a virtual station by recording and confirming an identity with a PIN.

OPEN-FIELD HARDWARE SUPPORT

Future-proof your ACM system with open-field hardware from Mercury Security and HID Global.
